

2018 Show Special

**Register and pay for a group training
and receive a FREE PRP Start Up System**

**1-Centrifuge, 2-PRP kits,
1-Vacumm Erection Device (VED)
1- Pelvic Floor Stimulator (Intensity)
(\$4,379 value)**

Group Training Includes:

Group training is a full day combination therapy course led by a team of board-certified medical experts. Attendees will work side by side learning advanced clinical techniques utilizing platelet rich plasma (PRP), shockwave therapy, pharmaceutical injectable peptides, RF energy and diagnostic imaging for male and female sexual wellness.

In addition to understanding how to prep patients, process biologics and apply therapies, attendees will also learn critical business steps to successfully implement regenerative procedures into their clinical practice – including how to talk to patients, inform them about these procedures and follow up treatment plans.

Training includes 1 full year of membership to Specialty MED's national network. Membership privileges include exclusive access to online training videos, comprehensive marketing in a box programs, clinical and office training and support, office and procedure implementation forms and much, much more.

**some restrictions apply*

- All inclusive 1-day training \$6995
- Additional non-clinical staff \$500
- Additional fee for optional 2nd day training in aesthetic artistry and combination hair regrowth protocol

Registration and full payment must be received by December 31, 2018
