Shockwave Therapy
Radio Frequency Technology
Pelvic Floor Stimulator
Peptides

Lisa Vuich, MD

Founder Renew Medispa & Training Institute
Aesthetic Expert & Regenerative Medicine Specialist
Education Director, Specialty MED Training

We are exceptionally proud to offer this unique training event focused on female sexual wellness, intended for all practitioners; those with no experience using regenerative therapies to those with significant experience.

During this full day training, attendees will learn how to treat female sexual dysfunction from stress urinary incontinence, painful intercourse, low sex drive to chronic pelvic floor pain, and vaginal atrophy, all by utilizing non-surgical and regenerative techniques as treatment modalities. Emphasis will be on Platelet Rich Plasma, combined with Shockwave Therapy and Radio Frequency.

Training includes didactics, as well as patient demonstration on PRP vaginal injections and the application of Shockwave and RF therapies.

Attendees will learn everything they need to know to treat patients, understand the equipment and tools necessary to apply the therapies, how to inform the patient about these procedures and follow up treatment plans.

This unique approach to learning offers the confidence needed to implement these regenerative procedures immediately in your practice.

Space is limited to 25 attendees, reserve your spot NOW.

TRAINING DATE & LOCATION:

Saturday, November 6, 2021 • 9:30am-4:30pm
Renew Medispa | 23 Crystal Ave | Derry, NH 03038
